

# THE Gleichen Call

Thirteenth Year, No. 35

GLEICHEN, ALBERTA, WEDNESDAY, NOVEMBER 19 1919

Subscription \$1.50 a Year

## Town Council Resigns

At a meeting of the Town Council held last Friday night the entire council and mayor resigned, to take effect the end of the year, which means the election of an entirely new council for 1920.

Mayor Tudhope and Aldermen Finigan, Bates and McIntyre's terms expire this year, and Aldermen F. K. McKay, C. B. Hyndman and H. D. McKay decided to resign in order that the ratepayers may elect a full new council for the coming year.

While it is understood these men do not refuse to act on the council again they will absolutely refuse to take their seats again by acclamation. Their reason for this is that they think there has been altogether too much kicking regarding the way they have handled the town affairs, especially in regard to tax collections, and now demand an expression of the people on their actions particularly of the past year.

They call upon all the ratepayers to be present at the annual meeting of the Council to be held in the Town Hall at 8 o'clock next Monday evening, November 24th, when the financial report of the year will be read and open for discussion, along with reports from the various committees.

Nominations for the new council will be held from 11 to 12 o'clock Monday morning, Dec. 1st, and the election on Monday, Dec. 8th.

This will be the first election of the council since the year 1910. All these years it has been difficult to get men to accept the positions by acclamation. Now, however, the time has come when the ratepayers must all take some interest in the business of the town.

Nevertheless, the town has been fortunate in having some very good councils, despite the lack of encouragement in their work.

The present council bore the burden of the hardest work and while it seems the nature of all mankind to kick at paying taxes we understand that next Monday night the report will show the town in better financial condition than for many years.

The fact is Mayor Tudhope has proved the best chief so far to occupy the head of our board and the councillors average up well with any we have had. They have accomplished a great deal against considerable odds, and it is up to every member to stand for re-election to show their earnestness in all their transactions.

At the same hour and place Gleichen Public School Board's annual meeting will be held, and the holding of the two meetings will surely make an interesting evening for all who attend.

## Gleichen G.W.V.A. Doings

The War Vets of Gleichen announce their intention of giving a series of whist drives during the winter months. The first drive is set for next Wednesday evening, Nov. 26th, in their new Club room. Everybody come who can or can't play. A fee of 25c. will be collected from the gentlemen and the ladies are requested to bring lunch. See posters.

The amalgamation of the Young Men's Club with the local G.W.V.A. should prove excellent for both societies as it will not only reduce the cost of upkeep for each, but should stimulate both organizations in every way.

The G.W.V.A. already has a splendid organization in Gleichen, which has the support of the entire community, and the Young Men's Club has winter

## \$101,600 Bonds for Gleichen

The change to warm weather, the splendid efforts of the canvassers and the willingness of the farmers and others to buy, combined are responsible for bringing Gleichen's contribution to the Victory Loan up to \$101,600—just \$86,000 more than the objective, which was set for \$85,000.

All considered this is a very good showing in a lean year, yet there is no doubt the amount would have been considerably more had the weather during the first two weeks of the campaign permitted the canvassers to get out into the country with autos.

The largest amount sold to one individual was \$80,000 and the next \$10,000. About ten invested \$1,000 each and many took \$100 and \$50 in share.

## Band Concert and Dance Friday

Friday night Gleichen citizens will have the opportunity of enjoying a musical treat that they will fully appreciate as the artists are all local people we mingle with every day. For months past Conductor E. Wetton has two and three nights each week spent the evenings drilling the members of the Gleichen Citizens Band, and is now prepared to allow the public hear to them and judge the progress made.

Frequently complaint is made of the lack of local entertainments in this town and Friday night an opportunity will be afforded to determine how many appreciate the efforts to meet this contingency.

After the concert a dance will be given and at mid-night the Women's Institute, assisted by the band boys wives, will serve lunch and hot coffee on the Opera House stage. All the proceeds will go into the treasury of the Band to assist in paying for their new uniforms.

Appended is the concert program for the evening:

**E. WETTON, CONDUCTOR**

1. MARCH, "Lieutenant Gentlemen" Citizens Band
2. GRAND SELECTION, "War Songs" Citizens Band
3. DUETT, Mrs. Onstad and Mr. Harris
4. SERENADE, "The Land of Dreams" Citizens Band
5. SELECTION, "Bohemian Girl" Citizens Band
6. DUETT, Mr. and Mrs. Wetton
7. ROMANCE, "At Sunset" Mr. McCullough
8. WALTZ, "Blowing Bubbles" Citizens Band
9. QUARTETTE,
10. OVERTURE, "Bright and Gay" Citizens Band
11. MARCH, "The Red Plume" Citizens Band

"GOD SAVE THE KING"

All stay to the Dance. E. MINARD, Floor Manager

## Saturday Nov. 22

Come and Inspect our Stock and Prices.

proved quite successful in all its endeavors to provide entertainment and sociability among the young men of the town and district. By uniting together now they will be able to supply ideal accommodation in the Larkin Hall for all purposes.

Tomorrow night—Thursday—the Young Men's Club will hold their first debate of the season to which they cordially invite all men in this town and district, hoping they will bring along any strangers who may be temporarily here. This is only the first of many public entertainments the club will give this winter.

All is set for the Hooky Club dance on Dec 5th. Mrs. Trainor's orchestra has been engaged and the Club members are determined to make this dance one of the most enjoyable of the season. They also hope to make sufficient money to buy new goal nets, uniforms, etc.

J. W. D. Woodward has postponed his auction sale to Nov. 25. His entire effects will be sold as advertised.

## Gleichen Board of Trade Discusses Coal

The reorganization of the Gleichen Board of Trade is proceeding with enthusiasm and an earnestness that augurs well for its future as well as great good for this town and district, twenty-two new members enlisting at the second meeting of the new board last Thursday night.

As an evidence of the good such an institution may accomplish, Vice-President Webster brought up the question of Gleichen's coal supply, which question at the moment is one that is cause of great moment to every point in Alberta.

Mr. McQueen and Mr. McMullen, two of our local dealers, stated that although they were doing their utmost to supply this district, the outlook was far from satisfactory. Over the phone the mine managers at Drumheller stated the valley was full of cars loaded with coal but it was impossible to get the railway to move them, and other reasons were given by the miners from other coal supply centres.

Mr. Webster wanted to know why Gleichen should be short of coal when within four to twelve miles of our town there were seams of coal varying from two to eight feet in width, of as good quality as any obtainable in Alberta, and he thought an effort should be made at once for the town to acquire a coal mine from the Indians of the Blackfoot reserve. He said that at Bassano the Board of Trade had taken up the matter with the Dominion Government with the result that Bassano was now mining coal sufficient for all needs, and he knew of no good reason why Gleichen should not do likewise.

This was cause for no little discussion and finally a committee was appointed to take up the matter immediately and obtain all the information possible from the government and the local agency, and work with the Town Council to acquire a lease of coal mine as near town as possible.

Mr. F. W. McKay stated that in order to obtain immediate relief the matter should be taken up with the Indians and some inducement held out to get them to work their mines and bring their coal to town. He maintained the coal was just as good as any brought from other points, although he admitted the Indians often brought in considerable slate which was due to their methods of mining. Yet he was quite sure they could be induced to bring in good coal once they got to work and opened up their mines properly. He averred the white men were largely responsible for the Indians refusing to work their properties. Too often the Indians were allowed to stand about town with their loads until dark, when the white men would offer them ridiculously low prices and they would accept them as they were anxious to get away home.

This also called forth considerable discussion before Messrs. McKay and James were appointed a committee to wait upon the Indians and offer them any reasonable inducements to mine and bring in their coal. The idea obtaining that they should guarantee the Indians sale for their coal in large quantities and find out if they needed any assistance in supplies or finances to carry on mining on a large scale.

The meeting opened promptly with President Geo. Matthews in the chair, and after accepting the minutes of the preliminary meeting the By-Law committee reported and these were accepted clause by clause with few alterations.

On motion D. Hutchison was selected chairman of the Finance committee to be assisted by Dr. Farquharson and James Cameron.

The Publicity committee selected comprised Messrs. Beach, Hall, Webster, Evan and McLean.

Before adjournment a motion was carried that the regular meetings of the Board be held at 8 p.m. on the second and fourth Mondays of each month.

## GEO. MATTHEWS

"VALUE WITH SERVICE"

## Xmas. Buying

Many of our lines are now in stock and they far exceed anything we have ever shown.

Last year so many people were disappointed at having sent their order away. They claimed we did not display our goods sufficiently early so this year everything will be ready for next week.

Our buyer is now in Winnipeg picking up what snaps cash will buy.

## Are Your Bowels Stagnant? Have You Indigestion?

When a Quarter Will Buy You a Guaranteed Remedy, Why Not Use it Today?

Many a person carries around in their system a cesspool composed of half-digested, putrid, decaying food that the overloaded stomach can't get rid of because of constipation. No wonder that anaemia, blood rashes, headaches and rheumatism are so common. No better cure is known than DR. HAMILTON'S PILLS OF MANDRAKE AND BUTTERNUT. Taken at night, you're well next morning. They flush out the system, sweeten and tone the stomach, improve digestion, filter and purify the blood, restore lost complexion, give vim, buoyancy and robust good health to young and old. To look, feel and always be at your best, use DR. HAMILTON'S PILLS regularly, 25c per box.

## THE COW PUNCHER

— BY —  
ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By The Mussion Book Co., Ltd., Toronto. Printed By Special Arrangement.

(Continued.)

"I've been thinking while you've been too busy to think," said Conward. "Then here's transportation. This is one of the few centres in America which has a north and south trade equal to its east and west trade. We're on the cross-roads. Every settler who goes into the North—and it is a mighty North—means more north and south trade. The development of the Pacific Coast, the industrialization of Asia, the opening of the Panama Canal—these mean east and west trade. Every railway that taps this country must come to his city, because we have the start, and are too big to be ignored."

"City is good," said Dave.

"All right. Scoff as much as you like. Have your joke before it turns on you. There'll be a quarter of a million people here before you're dead, if you play fair with the life insurance people."

"Go on."

"Then there's the soil—the richest soil in the world. Just dry enough to keep it from leaching. Natural possibilities for irrigation wherever necessary—"

"I'm not sure about it as a grain country," interrupted Dave, with a touch of antagonism.

"That is because you were brought up on a ranch, and are a rancher at heart," Conward shot back. "No rancher is ever sure of any country being a grain country. All he is sure of is that if the farmers comes it is good-bye to the open range. Just as the fur-trader blackguards the climate to keep the stockman out, so is the stockman blackguarding the climate to keep the farmer out. But they're coming. They can't be stopped. It's only a case of education—of advertising."

"I tell you, Dave, the movement is on now, and before long it'll hit us like a tidal wave. I've been a bit of a gambler all my life, but this is the biggest jack-pot ever was, and I'm going to sit in. How about you?"

"I'd like to think it over. Promotion doesn't come very fast on this job, that's sure."

"Yes, and while you are thinking it over chances are slipping by. Don't think it over—put it over. I tell you,

Dave, there are big things in the air. They are beginning to move already. Have you noticed the strangers in town of late? That's the advance guard—"

"Advance guard of a real estate boom?"

"Hush! That's a bad word. Get away from it. Say 'Industrial development.'"

"All right—industrial development. And do we have to have an advance guard of strangers to bring about industrial development?"

"Sure. That's the only way. You never heard of the old-timers in a town booming it—the term goes between us—did you? Never. The old resident is always deadlier than the town, no matter how dead the town may be. And this business is a science. The right gang can spring it anywhere, and almost any time."

"Let me elaborate. We'll say Alkali Lake is a railway station where lots go begging at a hundred dollars each. In drops a well-dressed stranger—buys ten lots at a hundred and fifty each—and the old timers are chuckling over sticking him. But in drops another stranger and buys a block of lots at two hundred each. Then the old timers begin to wonder if they didn't sell too soon. By the time the fourth or fifth stranger has dropped in they are dead sure of it, and they are trying to buy their lots back. All sorts of rumors get started, nobody knows how. New railways are coming, big factories are to be started, minerals have been located, there's a secret war on between great moneyed interests. The town council meets and changes the name to Silver City—having regard, no doubt, to the alkali in the slough water. The old-timers, and all that great, innocent public which is for ever hoping to get something for nothing, are now glad to buy the lots at five hundred to ten thousand dollars each, and by the time they've bought it up the gang moves on. It's the smoothest game in the world, and every community will fall for it at least twice. . . . Well, they're here."

"Of course, it's a little different in this case, because there really is something in the way of natural advantages to support it. It's not all hot air. That'll make the event just so much bigger."

"Now, Dave, I've been dipping in a little already, and it struck me we might work together on this deal. Your paper has considerable weight, and if that weight falls the right way you won't find me stingy. For instance, an item that this property—he produced a slip with some legal descriptions—"has been sold for ten thousand dollars to eastern investors—very conservative investors from the East, don't forget that—might help to turn another deal that's just hanging. Sorry to keep you so long, but perhaps you can catch the press yet." And with one of his friendly mannerisms, Conward departed.

Dave sat for some minutes in a quandary. He was discouraged with his salary, or, rather, with the lack of prospect of any increase in his salary. Conward's words had been very unsettling. They pulled in opposite directions. They fired him with a new enthusiasm for his city, and they intimidated that a gang of professional land-gamblers was soon to perpetrate an enormous theft, leaving the public holding the sack. Still there must be a middle course somewhere.

He walked to his little window and looked across the warm prairie. No buildings cut his view from the brown hillsides where the lazy mists of autumn beckoned to be out and free. It was a sleepy cow-town still, and yet, as he now recalled, a new pulse had been throbbing. Its arteries of late. The proportion of strangers—men in

## Ladies Perfume Your Skin With Cuticura Talcum

Antiseptic, prophylactic, deodorizing, fragrant and refreshing. Cuticura Talcum is an ideal face, skin, baby and dusting powder. Convenient and economical, takes the place of other perfumes for the person. A few grains sufficient. One of the indispensable Cuticura Toilet Trio for keeping the skin pure and sweet.

Cuticura Soap 25c, Ointment 25c and 50c, Talcum 25c, plus Canadian duties. Sold everywhere. For sample each free address: "Cuticura, Dept. N, Boston, U. S. A."

white collars and street shoes—at the hotels was steadily growing. Rents were going up. It was the first low wave—and Conward's ear had caught it. . . .

At any rate, he could use Conward's story about the land sale. That was news—legitimate news. Of course, it might be a faked sale—faked for its news value—but reporters are not paid for being detectives. The rule was to publish the news while it was hot. Nothing is so perishable as news. It must be used at once or discarded altogether. . . . The Evening Call carried a statement of Conward's sale, and on that statement was hung a column story on the growing prosperity of the city, and its assured future owing to its exceptional climate and natural resources, combined with its commanding position on transportation routes, both east and west and north and south. With the industrialization of Asia and the settlement of the great North—and how great is that North—etc., etc.

During the following days Dave had a keener eye than usual for evidences of 'industrial development.' He found them on every hand. Old properties, long considered unsalable, were changing owners. Handsomely furnished offices had been opened on principal corners for the sale of city and country property. Hotels were crowded, bar-rooms were jammed. The preponderance of the male population had never been so pronounced, and every incoming train added to it. Money moved easily; wages were stiffening; tradesmen were in demand. There was material for many good stories in his investigations. He began writing features on the city's prosperity and prospects. The rival paper did the same, and there was soon started between them a competition of optimism. The great word became "boom." It stood, apparently, for any action or attitude that would increase prices. The virus was now in the veins of the community; pulsing through every street and byway of the little city. Dave marvelled, and wondered how he had failed to read these signs until Conward had laid their portent bare before him. But as yet it was only his news sense that responded; his delight in the strange and the sensational. He was not yet inoculated with the poison of easy wealth.

(To Be Continued.)

## To Wear Old Clothes

A novel solution for bringing down the high cost of living in some particulars at least, was just put forward at the last meeting of Vimy Post No. 4, Grand Army of Canada. It was that returned man, and others, if they felt so inclined, should refuse to buy new clothes so long as they had anything at all to cover their nakedness and keep them warm enough to withstand the Canadian winter. To that end it was suggested that the returned men should have their khaki suits and overcoats dyed, should use their army shoes and the like. Doubtless if all the returned men did this it would have an appreciable effect on the sale of clothing. The resolution was put forward in all seriousness and carried without a dissenting vote.

## Vitality of Snails

Snails have remarkable vitality. A naturalist once revived some specimens after they had apparently been dead for fifteen years, and one that had been glued to a card in a museum returned to life after being immersed in warm water.

When there is work to be done the buzz saw is always ready to take a hand.

Dead men tell no tales; but they sometimes leave large quantities of unpublished manuscript.

W. N. U. 1290

## High Prices And Profiteering

Not Due to Profiteering, Though Profiteers Take Advantage of Them

Undoubtedly profiteering has a good deal to do with the high cost of living. All of us whose incomes are fixed or relatively inflexible have been growing steadily poorer since 1914, and we bear this the harder because we know that, sprinkled over the face of the country are favored individuals who have waxed enormously rich. Did not these individuals do their utmost to hoist prices to their profit and our bane? Of course they did, and if, having the power, we fail to make them disgorge, we are fools. But let us not suppose that thereby we shall have solved our problem of making ends meet smoothly. The profiteer rode into his fortune on a tide quite too stupendous to be ascribed to any personal chicanery or wizardry. From Patagonia to Cape Nome, from New York all round the world, the cost of living has climbed to an unprecedented level. We fret over our 91 per cent. increase (up to May 15; it has risen since). Australia, lost in the distant ocean, got off with a 40 per cent. increase. Canada had to stand for an increase of 104.5 per cent.; Great Britain, 140; Paris, 148; Sweden, 234. Italy and Spain, Vienna, Berlin and Moscow, could throw these figures into the shade. But they stopped reckoning percentages long ago. What they think of the cost of living cannot be expressed in calm figures. In Moscow, according to the atrocity literature, they cut off the heads of a squad of profiteers, supposed to be the 'wizards who brought on this tidal wave.'

If mankind must have wars, with millions of men diverted from production, and with governments, appearing in the depleted markets, buying, buying, buying, with bank credits based on government loans, as in America, with such credits and irredeemable banknotes besides, as in England and France, with the same and with unlimited fiat money in addition, as in Italy, Germany, the late dual empire and Russia, what is to be expected? Prices will rise and go on rising, even after the initial causes have exhausted themselves. Every seller will recognize that he is dealing with customers who expect to be plucked for higher prices. Shall he refrain from plucking them? Preposterous! That would be ethics, not business. Besides, every seller today is a buyer tomorrow, and as a buyer he will expect to be plucked; nor will he be disappointed in this expectation.—From the New Republic.

## Let Bygones be Bygones

"By the way, George, what shall we give Mabel for a wedding present? She gave us that plush upholstered chair in the attic, you know."

"I don't think we'd better send her anything, dear, why not let bygones be bygones."

You may not be able to do great things; but you can at least try to do the small things in a great way.

## "I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, backache, headache, biliousness and kidney derangements soon disappear with the use of this well-known medicine.

One pill a dose, 25 cts. a box, all dealers; or Edmanston, Bates & Co., Ltd., Toronto.

**Dr. Chase's Kidney Liver Pills**

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage. Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on bottle.

## Making Farms Out of Swamps

Reclamation of Several Thousands Acres of Swamp Lands Near Golden, B.C.

Work on the reclamation of several thousands of acres of swamp lands in the Columbia Valley, near Golden, B.C., will in all likelihood commence early next spring. An inspection of the proposed work is now being made by Senator B. C. Prowse, of Prince Edward Island, who is vice-president of the Golden-Windermere, Limited, a company capitalized at \$2,000,000 for the purpose of acquiring and reclaiming the lands in question.

Senator Prowse made a close examination of the lands between Golden and a point fifteen miles to the south, and was favorably impressed by their fertility. He expressed himself as being confident of the success of the proposed undertaking.

The company proposes to divide the lands into fifty-acre tracts, and Senator Prowse estimates that eight hundred families will be settled upon them. Figuring from the average Canadian family of six persons, this would mean an addition of some five thousand to the population of the district.

In 1917, \$400,000 was available in England for the purpose of financing the preliminary operations of the company, but the British treasury regulations would not allow the money taken out of England during the war. These restrictions have now been removed.

## Brotherhood Between Men

Country Needing Some Great Revival of Civic Spirit

The Bishop of Birmingham writes in a recent diocesan letter: "Our country is at the present time needing some great revival of civic spirit, and the church must not be negligent of its duty in seeing to it that the will of God becomes the basis of Britain's future policy. I am bold to say that brotherhood between men, which is the very essence of Christianity, will heal all the diseases now existing in the body corporate. We want that brotherhood right the way through; between rich and poor; between the various religious bodies in the country, and gradually but surely between the nations of the earth. Let us establish it at home, and we shall then greatly influence the world as a whole. I am not afraid of the working classes in this matter. If we in Birmingham read with any care the accounts of the conference of the Industrial League in this city, we must have been struck with the great capacity and the great idealism in those workers gathered from all parts of our land. They were the leaders of, at any rate, a great section of the employers and employed of Great Britain. The note struck was comradeship and co-operation, and I am quite certain that if these men can only get hold of the rank and file of their classes we shall have thrift once more regarded as something of which a man need not be ashamed."

The season for lemons never ends.

## Work For Returned Soldiers

Re-establishing of War Veterans Is Making Great Strides in B.C.

The work of re-establishing war veterans in civil life is making great strides in British Columbia. The provincial branch of the Soldiers' Civil Re-establishment Board has already trained 900 veterans for industrial work, and there are 1,700 soldiers who are either attending vocational classes or taking special training courses in industries. The department is training men for approximately 150 different trades and professions, the idea being to prevent the overstocking of the market in any individual trade or occupation. Employers are co-operating heartily in finding jobs for these men as soon as their training is completed.

## Twine From Flax

Successful Experiments Have Been Conducted in Saskatchewan

That the manufacture of binder twine and felt from flaxseed is commercially feasible is the report to the Provincial Department of Agriculture of F. W. Van Allen. Experiments were begun some years ago at the expense of the Provincial Government and the carding and finishing processes have been completed in the East. Samples of both twine and felt have been received. One of the twine samples is 55 foot twine, three-ply, which tests have shown has a breaking strain of 65 and seven-tenths pounds. The other sample is 600 foot twine, three-ply, with an average breaking strain of 45 pounds.

The experiments will have an important bearing on farming as many thousand tons of flax straw are annually destroyed after threshing.

If a woman wants to cut a man's acquaintance she may look daggers at him.

Poverty is the mother of many evils.

## KNOCKS OUT PAIN THE FIRST ROUND

Comforting relief from pain makes Sloan's the World's Liniment

This famous reliever of rheumatic aches, soreness, stiffness, painful sprains, neuralgic pains, and most other external twinges that humanity suffers from, enjoys its great sales because it practically never fails to bring speedy, comforting relief.

Always ready for use, it takes little to penetrate without rubbing and produce results. Clean, refreshing. At all drug stores. 35c, 70c, \$1.40. Made in Canada.

**Sloan's Liniment**  
Keep it handy

## Oil In Alberta

Imperial Oil Co. Ready to Spend Big Sum on Sinking Oil Wells

Speaking to a reporter in Calgary, Alberta, a few days ago, Mr. Alex. McQueen, vice-president of the Imperial company, said:

"We are prepared to spend, if necessary, \$50,000 on every well we start, in order to prove the existence, or non-existence, of oil in Alberta."

"Without a doubt a large refinery will be built at some central point in Alberta, should the company's efforts to discover a large oil field be successful. A refinery of considerable size is now in operation at Regina, and this will possibly be duplicated in Alberta."

The Imperial Oil Company is preparing to drill five wells in various parts of Alberta, including the Czar, Cardston and Nanton districts.

## Demountable Ships

British Capital Engaged in Manufacture From Douglas Fir

Announcement was made at Seattle that the Furbear Lumber company, a New York concern, controlled by British capital, this winter will ship 50,000,000 feet of Douglas fir from Seattle to points in the British Empire in the form of demountable ships.

About 500,000 feet of timber will be fitted in the hulls of the ships. When they reach their destinations, these hulls will be dismantled and delivered as lumber. The hulls and cargo of each ship will represent about 50,000,000 feet, it was said. Admiral Robert Peary's famous old exploring ship, the Roosevelt, now owned here, will tow the first of the demountable ships to Australia.

It's a shame the way some young widows break into the game again and don't give the maids a chance.

## CHILBLAINS

Easily and Quickly Cured with EGYPTIAN LINIMENT

For Sale by All Dealers Douglas & Co., Prop'rs. Nanaimo, Ont.

**EDDY'S "SILENT FIVES"**  
are the Finest Matches in the World  
They are specially treated to make them safe. They won't ignite unless they're struck. When they're blown out, they're completely out—no danger of fire. All Eddy's matches are non-poisonous. Made—and well made—from the choicest and best seasoned pine blocks—Eddy's "Silent Fives" are absolutely match perfection. Ask also for Eddy's Toilet Paper.

The E. S. EDDY CO., Limited, Hull, Can.

## ATLANTIC FLIGHT!

Wonderful example of the value of OXO.

Captain Sir J. ALCOCK writes:—"You will be interested to learn that 'OXO' was a great help to us during our 'Trans-Atlantic Flight'; it sustained us 'wonderfully during our 16 hours journey.' 'We had found out what a good thing it is when flying in France, and so 'decided to carry it with us on this occasion, and we can assure you that 'hot OXO' is most acceptable under such 'cold and arduous conditions.' 'OXO' was the only article of its kind which 'we carried.'"

J. ALCOCK, Capt., D.S.C.  
**OXO CUBES**

## Wonderful Flyers

Butterflies Which Cross the Ocean in the Spring

The most wonderful ocean flyers are the butterflies which cross the ocean in the spring. Naturalists tell us that one of the most amazing sights in the world is to see millions of these delicate creatures, like a cloud of tiny pieces of paper, flying across the Channel from the continent to the English shores, when the wind is favorable.

Their stamina and endurance are extraordinary, and although some fall exhausted into the sea, the bulk make a successful crossing. The butterfly army of invasion generally includes many beautiful specimens, and as an illustration of their powers of endurance, it might be mentioned many butterflies have descended to rest on vessels 200 miles at sea.

W. CLARK LIMITED MONTREAL

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoceticoacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and physical, loss of energy, indigestion, flatulence, loss of memory, etc. Price 25¢ per bottle, 50¢ for 60¢. One will please, six will cure. Sold by all druggists or mailed in plain package on receipt of price. **THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Walker.)**

### MONEY ORDERS

Buy your out of town supplies with Dominion Express Money Orders. Five dollars costs three cents.

### A Strike for Freedom

Unionism in a slightly different phase is being used by students of Shanghai, who have in their organization some 20,000 of their number, one-fourth of whom are girls. These unionists desire—not shorter hours, not other teachers, but they have struck for freedom of speech and the preservation of the freedom of the press. The movement, it is reported, is spreading to other cities. Thus come the evidences of the great democratic movement in China.

### Valuable Copper Mine

Almost Certain That a Railway Will Be Extended Into Northern Manitoba Near the Pass

The engineers of the Hayden Stone Co., New York, passed through Winnipeg recently after visiting Northern Manitoba to determine the value of the famous Flin Flon Copper Mine. Their report is said to be most favorable, and negotiations will likely be completed in December. Should they be successful, it is almost certain that a railway will be extended into Northern Manitoba near the Pass. The line will extend from the Pass to the mine, a distance of over seventy miles. This mine is worth approximately two million dollars.

The Hayden Stone Co. are acting as agents for J. C. Jackson, Utah copper interests.

### Manitoba Fruit

Three hundred barrels of apples have been sold from a Manitoba orchard this year.

It is officially announced that one million pounds of honey will be produced in the province this season. This estimate is the result of a careful and conservative survey of the honey industry, and exceeds previous year's production by over one hundred thousand pounds.

### How's This?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. Sold by Druggists for over forty years. Price 75¢. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

### To Lift The Lusitania

New Method of Raising Sunken Vessel Has Met With Good Success

Calamity is the mother of invention. Owing to the large number of valuable ships sunk by submarines in comparatively shallow water near the British Isles, special attention has lately been given by British inventors to the improvement of salvage methods. The present system involves the towing of lighters to the scene of operations, which make the process so costly and hazardous that in many cases the venture is neither feasible nor profitable.

According to the Halifax Chronicle, an entirely new method was recently tried, with conspicuous success, on a vessel which had been sunk by enemy action off the coast of Scotland. The salvage boat had on board two flexible pontoons made of special canvass and cable, and each weighing about one ton. These pontoons were fixed to the hull of the sunken vessel and inflated with compressed air, raising the vessel slowly and permitting it to be towed into shallow water for beaching. Each pontoon when inflated is capable of lifting 100 tons, and the makers are now confident of being able to make similar pontoons with a lifting capacity of 200, 300 and even 500 tons.

By multiplying the number of large pontoons, vessels of any size can be raised, provided that divers can reach the hull in order to fix shackles to it. There is thus, it is contended, a clear possibility of raising the "Lusitania." A battery of 80 pontoons, each of 500 tons lifting capacity, would be sufficient, it is claimed, to lift the vessel so that it could be towed into shallow water, where it could be repaired, pumped out, and refloated at high tide.

**Awful Asthma Attacks.**—Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

### Soft Drinks

Have you any idea what things are in the bottled soft drinks you consume? Some contain one thing, some another, but all contain water, flavor, sweetening and carbon dioxide gas. Those four things are the basic essentials of a bottled soft drink. There is likely to be some coloring matter and there may be an acid—usually either the citric acid found in lemons or tartaric acid found in grapes, though sometimes mineral acids are used. Frequently there is a condiment, such as red pepper, cinnamon, allspice, cloves or nutmeg. There is almost certainly a trace of alcohol. And that just about covers what is likely to be found in these soft drinks.

A long yarn is sometimes produced from the threads of conversation.

The mosquito isn't a prohibitionist, yet he wants the bars removed.

The average milk pail refuses to upset until it gets full.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

The political party worker is the one who is the most successful in working the party.

Minard's Liniment Cures Diphtheria.

A Scottish minister had been away on a vacation, and on his return asked the sexton how all had gone in his absence. "Very well, indeed!" was the cheering response. "They do say that maist ministers leave someone worse than themselves to fill the pulpit when they go away, but you never do that, sir!"

## LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

Men, like tools, are useless, when they lose their temper.

Minard's Liniment Co., Limited.

Gentlemen,—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of La-Grippe, and I have frequently proved it to be very effective in cases of inflammation.

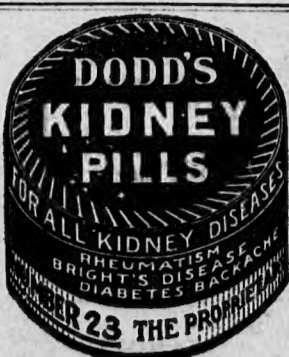

Yours,  
W. A. HUTCHINSON.

### Britain Exporting Live Stock

August was a record month for British live stock exporting. Over a million dollars poured into the pockets of British breeders of pedigree stock. Since New Year's Day about \$400,000 have been paid Britishers for their horses, cattle, sheep and pigs. In August, 518 horses were sent out of the country. Holland was a buyer of 102 head worth \$580 each. Belgium took 98 head worth \$1,350 each. During the month 916 cattle were sent away, the United States taking 31. Canada bought 41, Uruguay 30, and the Argentine 99. The total number of sheep exported was 1,819 head, of which the United States took 480.

Don't think that a girl by any other name would be as sweet. You may find out your mistake after giving her yours.

A variety stage transforms an actor into an artist.

## TONIC TREATMENT FOR THE NERVES

Neuralgia and Other Severe Nervous Disorders Cured Through the Blood

In many severe nervous disorders the best remedy is often a tonic. The most active tonic treatment is recommended by the highest medical authority to arrest the progress of such disease. Dr. Williams' Pink Pills are a tonic that acts on the nerves through the blood, which carries to the nerves the elements needed to build them up and restore them to a normal condition.

Neuralgia, sciatica, nervous headaches and a number of more severe nervous troubles are properly treated by building up the blood with Dr. Williams' Pink Pills and are often entirely cured in this way. If you are nervous you can help yourself by refusing to worry, by taking proper rest and sleep, by avoiding excesses and by taking out-of-door exercise. For medicine take Dr. Williams' Pink Pills and you will soon notice the beneficial effect of this tonic in every part of the system. Miss Annie L. Johnston, R.R. No. 1, Listowel, Ont., is one of the numerous sufferers from nervous troubles who has found a cure through Dr. Williams' Pink Pills. Miss Johnston says: "For a long time I was a severe sufferer from nervous troubles, with the result that I grew very pale and weak. Medical treatment did not help me, and various medicines had no beneficial effect, until finally a friend advised me to try Dr. Williams' Pink Pills. I began their use and took the pills regularly for several months, with the result that I not only gained weight, but have recovered my full health and strength. I cannot praise Dr. Williams' Pink Pills too highly for what they have done for me."

To build up the blood there is one remedy that has been a household word for a generation, Dr. Williams' Pink Pills for Pale People. They tone up the entire system, make the blood rich and red, strengthen the nerves, increase the appetite, put color in the cheeks and lips and drive away that unnatural, tired feeling. Plenty of sunlight, good wholesome food and fresh air will do the rest. You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Seriousness of Red Plot

Bolsheviks Had Made Sinister Progress in the U.S.

Raids on headquarters of members of the Union of Russian workers, who plotted to destroy the U.S. government, are practically complete, and the next step is deportation of the ringleaders. Immigration Commissioner Caminetti already has obtained a number of deportation orders, and more will be issued as soon as tabulated.

The further the federal agents went into the Russian conspiracy, the more they were impressed by the seriousness of the plot, according to reports made to headquarters here. There is no idea that their revolutionary move would have had a chance of success, but it is admitted it would have caused many riots and probably great destruction and loss of life if not halted.

## Like a Tidal Wave Heart Disease and Nerve Troubles Sweep the Country

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life, constitute a serious drain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain. On the first approach of any breakdown of the system, Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous.

Mrs. W. A. Wright, Hopewell Ave., Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a trial. Believe me, six boxes cured me completely. I am feeling fine now, and can attend to my work every day. I can recommend your pills to anyone suffering as I did."

Price 50¢ a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### B.C. Apple Crop

The apple crop in British Columbia is fifty per cent. greater than the previous best year. Large quantities have been exported to the United States, whose buyers contracted for crop on the trees. About three hundred and fifty cars were sent to Ontario, one hundred and fifty to Great Britain, and eighty to New Zealand. Growers are elated at the success of their products in the United States, where it has met the American apple in open market.

Some spinsters advance step by step until they become stepmothers.

## Western Canada's Grain Crop

Estimated Total Production in the Three Prairie Provinces Is 167,836,400 Bushels

The estimated total production of wheat in the three Prairie Provinces, according to the Dominion Bureau of Statistics, is 167,836,400 bushels, as compared with 164,436,100 bushels in 1918. In Manitoba the total yield of wheat for 1919 is 42,509,100 bushels, as compared with 48,191,100 bushels in 1918; in Saskatchewan, 88,221,100 bushels, as against 92,493,000 bushels in 1918, and in Alberta 37,106,300 bushels, as against 23,752,000 bushels in 1918. Oats yield 241,068,000 bushels in the three Prairie Provinces, as compared with 222,049,500 bushels in 1918; barley, 47,946,000 bushels, as against 47,607,400 bushels; rye, 6,009,000 bushels, as against 6,161,700 bushels, and flaxseed, 7,117,000 bushels, as against 5,776,000 bushels.

### Unique Gift to Prince

Gifts of many kinds have been presented to the Prince of Wales during his tour of the Dominion, but one that differed from the rest was that presented to him during his visit to the Baron de Hirsch Institute, Montreal. A tablet of gold, on which were carved the Ten Commandments, was presented to the Prince, the tablet being handed to him by Sylvia Lillian Cohen, the nine-year-old daughter of Mr. Lyon Cohen. The commandments were in Hebrew characters, but the words, "Presented to His Royal Highness the Prince of Wales, from the Jewish citizens of Montreal," were in English.

"Now remember, I'm sending you out to sell a portable garage."

"That's what."

"And in talking this portable garage."

"Yes?"

"Always pronounce garage the way the prospective customer pronounces it."—Kansas City Journal.

### CORNS ARE LIKE KNOTS

Year by year they grow harder, and incidentally more painful. Why suffer when you can be cured for 25¢ spent on Putnam's Corn Extractor? Fifty years in use and guaranteed to cure. Use Putnam's Extractor, 25¢ at all dealers.

### Sir Rosslyn Wemyss Honored

A Barony of the United Kingdom has been conferred upon Admiral Sir Rosslyn Wemyss, G.C.B., who has relinquished the post of First Sea Lord to Earl Beatty.

**It Bids Pain Begone.**—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in, it will still the pain and produce a sensation of ease and rest. There is nothing like it as a liniment, for its curative properties are great. A trial of it will establish faith in it.

### Canada's Coal Resources

The tabulated statement of coal production shows that no coal is produced in three provinces, namely, Quebec, Ontario and Manitoba. In 1917, the total production in Canada was 14,015,588 tons, having a value of \$47,643,646.

Nova Scotia led in coal production, with 6,324,684 tons, or a little more than three-sevenths of the total output. Alberta was second with 4,723,189 tons.

Some men just can't foot a bill without kicking.

Some people save a lot of money by not buying soap.

Minard's Liniment Cures Distemper.

### The Unkind Printer

Misprints are often a source of joy to all but editors. Few are more pleasing than those enshrined in the ancient yarn—probably concocted—of the public banquet at which a speaker, in proposing the toast of "The Army" coupled with it the name of the distinguished general, whom he described, according to the printed account of the proceedings, as a "bottle-scarred veteran." In the next issue of the paper in which the libel had appeared a note was inserted expressing regret for a typographical error, and explaining that the words should have been "battle-scarred veteran."

The Bank of England has the right to sell beer without a license. This privilege was granted to the bank in its charter of incorporation under date of July 27, 1694. And so the bank, if it liked, could open a bar on Threadneedle street, or could send wagons round and deliver beer from door to door. Needless to say, however, it has never attempted to exercise the privilege.

W. N. U. 1290

## BETTER HORSES IF THEY HAVE SPOHN'S DISTEMPER COMPOUND

When your horses are subjected to changing weather conditions of winter and spring, their systems become run down, with the result that they are very susceptible to DISTEMPER, INFLUENZA, PINK EYE, COUGHS and COLDS. SPOHN'S will keep your horse in good condition, so his system can ward off disease.

Buy of your druggist.

## Ask Your Druggist For Dr. Miles' Calendar For 1920

IT is FREE and the best large-figure Calendar published. It gives the weather forecast for each day in the year, also time of Sunrise and Sunset and phases of the Moon. "An exceptionally complete and useful Calendar." That's what everybody says. The edition is limited. It is therefore very important that you call early so that you will be sure to get this splendid free Calendar at the beginning of the year.

Just go to your druggist, tell him your name and address, and that you want Dr. Miles 1920 Calendar. He will do the rest—FREE.

### To Further Education

Western Provinces to See People Get Necessary Facilities for Educating Their Children

Manitoba Agricultural College has enrolled over three hundred new students, bringing the class attendance to five hundred. Many returned soldiers are to be found among the new students. As an instance of the desire on the part of the Western provinces to see that people living within their borders get the necessary facilities for educating their children, a school has been organized on Snake Island, one hundred and forty miles north of Selkirk, Manitoba, where the means of access is by water. The population is small, but the educational facilities are provided in exactly the same manner as in more accessible and populous districts.

## RASCALS

Biliousness, Headache, Colds, Constipation, driven out with "Cascarets"

Why take nasty cathartics, sickening salts, or stomach-turning oils to drive these rascals out? Let gentle, harmless Cascarets remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your skin sallow, your breath offensive, and your stomach sour. Get a box of Cascarets at the drug store and rid your liver, stomach and bowels of the excess bile, poisons, and waste which are keeping you miserable. Cascarets never gripe, never sicken, never inconvenience. They cost so little and work while you sleep.

Women ought to make satisfactory angels because they are so fond of "harping."

If a man ever speaks the truth it is when he is angry.

## Keeping Fit

BY DR. SAMUEL HAMILTON.

It is because of the war that the perfect physical man has all at once become the idol of the world. You can make of yourself, even rather late in life, almost anything you like. You are not going to get fit in one day, one month, or, perhaps, a year, unless you take enough outdoor exercise to keep the circulation going and practise the athlete's first principle—to keep the system clean. He does not give his body a chance to absorb poisons. He not only takes his cold shower, after exercise, but he knows a cleansing of the intestines is important, and he takes occasionally a good regulator and liver cleanser, such as a dose of castor oil, or, what is much better, a tiny pill made up of May-apple, aloin and jalap, and sold by almost all druggists in the land as Dr. Pierce's Pleasant Pellets.

Keep the kidneys in good order also.

Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "Anurio" (anti-uric-acid). This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headaches, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night. Take heed, before too late! Get Anurio (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package of "Anurio"

## Why We Claim to be Pioneers in the West

As a Western institution our Bank appeals particularly to the agricultural interests of the Prairie Provinces. Our first country branch was opened in 1889 and we have consistently followed a policy of extending our rural connections with the growth of settlements. We claim to have been of material assistance to agricultural communities in developing their resources, and in carrying them through poor crop seasons.

## QUEENSTOWN

Owing to the blizzard weather Friday morning and almost impossible trails, the soldiers' dance came near being a failure. The High River band telephoned out Friday forenoon that they were unable to get over and when those who came to the post office for their mail Friday were informed of this they concluded there would be nothing doing and stayed at home.

But as the evening turned out fine people began to gather and by 10 o'clock there was over a hundred in the hall and quite a number of returned soldiers among them. As luck would have it there were quite a few among those present who were musicians and as these took turns in playing the dance went on uninterrupted.

A splendid supper was served at 12 o'clock; the best supper ever put up at the hall. Captain B. Shaw, a young English soldier at present visiting with Mr. Kingsmith, delivered a fine little speech, thanking the committee and the Queenstown people for the fine reception prepared for the returned soldiers.

A short programme consisting of recitations, singing and music was put on after supper, after that the dance went on until about 4 a.m., and everybody left with the feeling that they had had a very good time in spite of the bad weather.

The Milo post office will be a money order office before long.

The farmers' local and the U.F.W. will meet in the hall Saturday evening at 8 o'clock, November 29th.

Joe McCabe is now building on his new residence. It is going to have all the rest built so far skinned a mile.

Mrs. Bertrand, who was run over by an auto in Calgary and seriously injured some time ago, is getting much better.

A couple of Vulcan men intend to build a garage in Milo across the road from the bank. Lumber for the new building will be hauled out when the trail improves.

Mr. Wm. Oeler, who returned from the seat of war last fall bringing a wife with him, has about finished a new house on his homestead. Bill's old friends look forward to a housewarming.

The Queenstown Farmers Union and new U.F.W.A., women's local, meet in the Milo Hall at 8 o'clock the last Saturday evening in each month.

Mr. Anderson, our former ferry-man, who has been living for the past two years on the old Jordan place (owned by Mr. Calquhoun of the Circle), has moved down on the banks of the Bow east of Bassano, where he has bought a quarter section.

The man who thinks he knows it all about sunny southern Alberta weather has another guess coming. The oldest residents who have lived here since the country was wild and woolly, claims that winter never set in in the middle of October before and stuck to us like the present winter does.

## Speech Full of Meaning

The farewell speech delivered by the Prince of Wales at Toronto, possessed more significance than any other in the course of his tour. He undertook to define the relationship of the royal family to the self-governing peoples of the Empire, and he did so with a definiteness and felicity of language which must make his utterance one of the utmost importance in the development of our constitutional relations.

"The Throne," he said, "stands for a heritage of common aims and ideals, shared equally by all sections, all parties, and all nations within the British Commonwealth. No government represents or stands for all parties or all nations within the Empire. But, despite this, there is a common sentiment which is shared not only by all nations within the Empire, but also by all political parties within each nation. We all know this because it was this common sentiment which made Britishers stand together in the great war, and I realize that this same sentiment has been expressed in the wonderful welcome given me in Canada as heir to the Throne."

This view cannot be too strongly (Continued on page 5)

## BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY BECAUSE:

Irrigation makes the farmer independent of rainfall, and in sure good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALLAN CAMERON, Gen. Supt. of Lands  
Canadian Pacific Railway, Dept. of Natural Resources, 928 1st St. St. E.  
CALGARY, ALBERTA

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements (6% interest); no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

\$10 REWARD—Is offered for the  
recovery of cattle branded with  
on left ribs and horses branded  
on left thigh. Mrs. J. H. Chandler,  
Nanton, Alta.

## Gleichen Contributes, Very Generously

A week ago Sunday it was announ-  
ced in the Union Church that Mrs. C. J.  
Bray, one of Gleichen's pioneer wo-  
men, had written from Travers stat-  
ing that there was much need in that  
vicinity for warm clothing, underwear,  
shoes, etc., by the women and child-  
ren, owing to three successive crop  
failures. Gleichen folks are well-  
known for their generosity when any  
such appeal is made and accordingly  
on Saturday last three huge boxes of  
excellent goods, and a great variety  
were dispatched to Mrs. Bray to divide  
among her unfortunate friends. The  
ladies who had charge of the collec-  
tions wish to thank all who contributed  
so generously and assure them that  
with Mrs. Bray to handle the gifts the  
very best results are assured.

It is when such appeals as this reach  
us that we feel thankful that we are  
so fortunate to live in a district bless-  
ed with crops that usually are bound-  
less and always sufficient to keep us  
from want. And be it said here that  
we must hold in the highest respect  
the people of Travers for their brave  
spirit in their determined efforts to  
make the best of a situation that is  
most trying and has been beyond their  
control and we will all hope that next  
year's crops will fully reward them for  
their consistency.

### Local and District News

The Citizens Band concert and  
dance on Friday, Nov. 21st, will be  
something unique and you will be  
pleased with the excellent program  
to be provided.

Every worthy citizen will attend the  
annual meeting of the town council  
and school board on Monday next, at  
8 o'clock. That's the place, the date  
and the time to say all the nice things  
of the councillors and trustees or for-  
ever hold your peace.

The blowing of the town whistle on  
Armistice Day disturbed few people,  
and strangers would never have  
thought it was supposed to be a siren  
fire alarm. In order to keep the  
whistle in good condition we would  
suggest it be blown every day at 12  
or 1 o'clock, or both. Some night we  
may need it and then what a roar the  
dear people would make.

A. Layzell & Co. are holding their  
next regular monthly auction sale at  
Calgary stock yards on Friday next,  
November 21, when they will offer 550  
horses for sale. Here is an excellent  
opportunity for those who have plenty  
of feed to make good money, as horses  
just now are being sacrificed owing to  
a scarcity of feed in certain districts.  
Messrs. Layzell and Burns are well-  
known to Gleichenites and it is not  
necessary here to state that they stand  
back of all they offer at these monthly  
sales, which are proving popular.

### (Continued from page 4) Speech Full of Meaning

impressed. It affords the complete  
explanation of the wonderful welcome  
which His Royal Highness has been  
given in all parts of the country. It  
is the answer to those—a fractional  
minority, we are glad to say—who per-  
sist in arguing that the monarchy is  
an anachronism and serves no useful  
modern purpose.

In another part of his Toronto  
speech, the Prince declared that the  
dominions were no longer colonies but  
were the sister nations of the British  
nation. "Empire unity was shown by  
common allegiance to the King"; that  
was why he regarded himself "as be-  
longing to Great Britain and Canada in  
exactly the same way." When he went  
to the United States he would regard  
himself "not only as an Englishman  
and as a Britisher, but also as a Cana-  
dian and a representative of the whole  
Empire."

There are those who think that this  
common allegiance to the one throne  
is a sufficient bond of empire and that  
in foreign as in domestic affairs all  
of the self-governing portions of the Em-  
pire should be free to take such action  
as they please quite independently of  
one another. But the difficulties of  
avoiding such an ultimate result are  
only too apparent, and if in the end  
it does come about that the throne re-  
mains the only link of empire, it is a  
matter of deep thankfulness that the  
attachment to it by citizens of all  
parts of the British dominions is so  
very genuine. How profound it is in  
Canada all must recognize since the  
coming of the Prince.

**Tested 250,000 Miles**  
**Three-Point Suspension Springs**  
**Greatest Improvement Since**  
**Pneumatic Tires**

OVERLAND 4 has been tested as no car has ever  
been tested before. 250,000 miles of mountain  
trails, desert sand, heat, cold, mud and dust demon-  
strated the quality of every part of the car long  
before we began manufacturing.

This remarkable test showed conclusively that  
Three-Point Suspension Springs, exclusive with Over-  
land, are the greatest improvement in riding  
comfort since the introduction of pneumatic tires.

Diagonal attachment of the Three-Point Springs  
at both ends of a 130-inch Springbase gives the road  
steadiness of the heavy car of long wheelbase.  
Equipment is complete from Auto-Lite Starting  
and Lighting System to Demountable Rims.  
The longer you ride in this car the better you will  
like it. Come and see this car. Ask for Booklet.

### Osteopath

Dr. Church, Plummer and Siemens,  
Osteopathic Physicians, who have  
been advertising in The Call for the  
past month, have added another mem-  
ber to their firm in the person of Dr.  
S. M. Stern, who has recently arrived  
from the States. Dr. Stern comes  
from a family of Osteopaths, there be-  
ing several members of the immediate  
family who are practicing Osteopath  
Physicians. His father has been located  
in St. Paul, Minn., for the past  
twenty years.

Dr. Stern has had some years of  
experience in practice, and has made  
a specialty of Obstetrical work. This  
completes the Osteopathic profession  
in this city to handle all kinds of cases  
by Osteopathic Physicians. Dr. Stern  
has recently been discharged from the  
U. S. army, having spent several  
months in France.

Dr. Stern will be located permanent-  
ly with Drs. Church, Plummer and  
Siemens at 301 Grain Exchange Build-  
ing.

Our friend John Glainbeck of  
Queensdown U. F. A. fame, can ever  
be counted upon to sprinkle a little  
oil on troubled waters. Last week he  
attended a meeting of U. F. A. secre-  
taries in Calgary, where at a resolu-  
tion was passed endorsing President  
H. W. Wood's political class group  
representation plan, and John took a  
part in the oratory when the discus-  
sion got warm. According to the  
Herald's report John there are two  
classes of society in this country to-  
day: Those who produce, and those  
who are able to take from the pro-  
ducer. The big man sets the prices  
he avers, and the small business  
man, such as retailers, have to toe  
the mark and take the blame. They  
are in the same boat as the farmers  
and the laboring men. He qualified  
that, although these three groups are  
in the same boat, each group has  
different questions to settle; there-  
fore, the farmer, laborer and the  
small business man must find some  
common ground on which to work.  
The closed door is the right policy,  
he avers, at the coming election.  
"We can't have one man talking this,  
and another that. We must agree."

### Rest With Nature

The closer you follow the rules of  
nature the more you will accom-  
plish, and the longer you will live,  
even nature takes her rest during  
the winter months. Why not you?  
Spend this winter on the Pacific  
Coast, where you can enjoy sum-  
mer betimes, ride, motor, golf, in  
the big outdoors.

The Canadian Pacific Railway  
operate three through trains daily  
to Vancouver, including the fast  
all-sleeping car train "Trans-Canada  
Limited". See the magnificent  
mountains in their winter garb; the  
open seas and green fields—all this  
and more await you at the Pacific  
Coast.

Call or write for full particulars  
to any Agent of the Canadian Paci-  
fic Railway.

### Controlling the Liquor Traffic

The most efficient method of controlling the liquor traffic with the object of eliminating the abuses and excesses which seem to be inseparable from it has long been the subject of agitation and legislation. Possibly no one question has resulted in the passage of a greater volume of legislative, the enactment of more restrictive laws, or the taking of more votes, than that of public control of the traffic in intoxicants. And notwithstanding it all, we are still far from having solved the problem in a satisfactory manner.

The outbreak of the Great War, and the imperative necessity imposed upon all nations of conserving their resources in man-power, productive capacity, and food supplies, led to the enactment as war measures of stronger restrictive measures than had ever before been generally acceptable to the masses of the people. Many ardent temperance reformers believed that these restrictive laws would be continued after the war, and that in a generation or two the blight of the liquor traffic would be an evil of the past.

It is now quite apparent that many of these restrictive laws will cease to function with the declaration of Peace, which may be proclaimed for the British Empire before this article appears in print, and in any event cannot now be long delayed. One reform brought about by the war will, however, prove lasting; that is, the open bar with all its evils and open temptations, and its pernicious treating habit, has gone never to return.

Actual experience during the war has demonstrated that existing prohibitory legislation is not as conclusively prohibitive as the authors of such laws anticipated they would be. On the contrary, violations of the law are so numerous, and are so little regarded by the average person, that a condition of things has been brought about in all these Western Provinces which is little short of a scandal, and which is certainly detrimental to a proper respect for law and subversive of good morals.

In the United States, the people have declared for nation-wide prohibition of the sale, manufacture, importation and exportation of intoxicating liquors for beverage purposes. In Canada, on the other hand, we have no Dominion-wide law, nor at present does there seem much likelihood of such a law being passed. For one thing, the Canadian Senate has shown very clearly that it will not give approval to such legislation, and the House of Commons has ever before it the attitude of Quebec, which is antagonistic to an absolutely prohibitory law.

Control and restriction of the liquor traffic in Canada continues, therefore, to be a subject for provincial action, supplemented by such Federal action as assist the provinces as the provinces by vote of their people may demand.

According to legislation passed at the recent special session of Parliament, the manufacture of liquor is prohibited, except for purposes of export, in those provinces which prohibit the sale. Furthermore, the importation of liquor into individual provinces can be made illegal if the legislature of a province asks by resolution that a plebiscite vote be taken by the Federal authorities within such province on the subject of importation, and a majority of the voters declare in favor of prohibiting such importation. But after peace is proclaimed, and until such a plebiscite is asked for and held and a verdict favorable to prohibition rendered, importation of liquor for personal use, but not for sale, will be perfectly legal in all Canadian provinces. Thus the prohibitions which have been in force under orders in council will cease with the proclamation of peace. So long as importation into a province is legal, it is manifestly impossible for any provincial legislature or government to enforce prohibition of the liquor traffic. It can prohibit the sale of liquor, but that is all. And so long as importation is legally permitted existing abuses against which a large section of the people are complaining will continue. And at the best it will not be impossible to stop such importation for from six months to a year.

When such a plebiscite vote is eventually held in any province, and if the popular verdict should be to permit importation, then the provincial authorities will have to seriously consider whether it would not be better to provide for some form of regulated and controlled sale within the province, rather than have the door left wide open to indiscriminate individual importation of liquor in unlimited quantities. Should the people of a province declare in favor of permitting importation, most thoughtful temperance advocates believe that some form of government dispensaries based on the mail order system, and patterned somewhat after the system which at one time was in vogue in Saskatchewan, should be established.

On the other hand, if the people declare against importation, then the utmost care must be exercised in the drafting of the most drastic kind of provincial laws to prevent a repetition of abuses which are now unfortunately so general.

Whatever the nature of the laws enacted, they must be back of them the force of a strong public opinion in order to prove effective and beneficial. In the last analysis it is the people who make the laws, and unless a law has the support of the people it will not be observed and cannot be enforced.

Minard's Liniment Cures Garget in Cows.

### Community Interest

The Teacher an Important Factor in Community Life

"What does the community expect of the teacher?" To this question there is but one answer, "Everything," according to Col. T. E. Perrett, principal of Regina Normal school, who delivered the principal address before the teachers and trustees of Saskatoon district recently. He urged strongly upon the teachers the necessity for getting the entire community interested in the school, by the use of libraries, parent teacher associations, and other practical measures.

Other addresses, dealing with methods of teaching, were delivered by J. E. Coombes, inspector of the district; Dr. G. M. Weir, principal of Saskatoon Normal; A. S. Ross, and others.

### An Early-Rising Premier

Mr. E. C. Drury arose at 4 a.m. on Monday to travel by motor and trolley to answer the call of the Lieutenant-Governor. This early rising will throw quite a scare into the ranks of the civil service in Queen's Park.—Toronto Star.

### A keen blade for every shave

If there's any pleasure to shaving, you get it in an AutoStop Razor. First, because there's always a sharp blade ready for use—a few turns on the stop brings it back to its professional keenness. Secondly, because there's no fussing with parts after shaving. And thirdly, because a simple adjustment makes it possible for you to shave as closely or as lightly as you wish.

From first to last, sharpening, shaving and cleaning, you never need to remove the blade from the razor.

Razor — Stop — 12 blades — \$5

**AutoStop SAFETY RAZOR**

AUTOSTOP SAFETY RAZOR CO., Limited  
AutoStop Building, Toronto, Canada

### Sir Francis Drake's Sword

At a sale held in Inverness recently the sword of Sir Francis Drake was disposed of. This weapon is considered to be the one which Queen Elizabeth presented to Drake on the occasion of his being knighted after his voyage round the world. The sword realized 240 guineas.

**Hope for the Chronic Dyspeptic.**—Through lack of consideration of the body's needs, many persons allow disorders of the digestive apparatus to endure until they become chronic, filling days and nights with suffering. To these, a course of **Barnes' Vegetable Pills** is recommended as a sure and speedy way to regain health. These pills are specially compounded to combat dyspepsia and the many ills that follow in its train, and they are successful always.

A young widow hasn't much use for a man who attempts to kiss her and fails.

### Kill the Germs of Catarrh

By Acting To-day You Can Quickly Avoid Catarrh and Avoid Bronchitis, Perhaps Consumption

Most Agreeable and Surest Cure Is Catarrhazone, Which Cures Every Curable Case

Catarrhazone proves especially good in those chronic cases where mucous drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes, the soothing, healing properties of Catarrhazone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhazone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis, and speaker's sore throat.

The complete \$1.00 Outfit of Catarrhazone is sufficient for two months' treatment, and is guaranteed. Smaller size, 50c, at all dealers, or Catarrhazone Co., Kingston, Ont.

### Western Canada's 1919 Crop

While exact figures are not yet obtainable, wheat authorities now seem to be conforming to the general opinion that Canada's total yield of wheat this year will be 248,000,000 bushels, as compared with 189,000,000 bushels last year. Of this crop, the share of the Western Provinces is 166,000,000 bushels, or over two-thirds of the total yield.

In addition, one of the most reliable sources in Canada has estimated that the West will produce 227,000,000 bushels of oats, 37,000,000 bushels of barley, 6,000,000 bushels of flax, and over 2,000,000 bushels of rye.

It's surprising how many otherwise sensibly inclined men believe in signs and omens.

Suspect not a friend's word, but rather his meaning.

### Iron Pyrites and Clay Deposits

Interest Shown by Capitalists in Development of Saskatchewan's Natural Resources

Immense deposits of high grade brick-making clay have been discovered at the Elbow, according to Andrews & Cruikshank, analytical and consulting chemists, Regina, who recently analyzed samples brought in by farmers of the Elbow district. It has been further discovered that a very valuable deposit of iron-pyrites underlies the clay, so that the men who file on these claims and succeed in developing the discoveries have a double-barrelled source of revenue. Iron pyrites furnish sulphuric acid, which is a basic acid in chemistry and is worth \$35 a ton, while a valuable by-product is obtained in red oxide. Claims extending over a quarter section have been filed on and an endeavor is being made to interest capital, says the Regina Leader.

A few days before the discovery of the iron pyrites was made, an Old Country capitalist, who manufactures sulphuric acid in England, was in the office of Andrews & Cruikshank and said that he would be willing to manufacture sulphuric acid here if he could locate a deposit of iron pyrites. Efforts are being made to get in touch with him.

Messrs. Andrews & Cruikshank informed The Leader that all indications point to a great movement by Old Country capital in the development of the natural resources of the West, and that the next two or three years should see some important investments in directions which up till now have been entirely neglected in this province.

### The Canadian Wheat Crop

Is Estimated by the Government at 193,000,000 Bushels

The Canadian wheat crop for 1919-20 is estimated by the government at 193,000,000 bushels, or about 4,000,000 more than that of last year. According to authorities on agriculture, Canada requires for home consumption approximately 40,000,000 bushels of wheat, and for seeding about 35,000,000, making a total of 75,000,000 bushels.

Canada's exportable wheat in 1919-20 will therefore be about 118,000,000 bushels, as compared with 103,611,000 in the last twelve months, or about 10,000,000 bushels. This will allow of a few million bushels for the carry-over stock on August 1, 1920.

The production of wheat in Europe, on the other hand, is down, and Canada's prospect of a good market is very bright. If credits can be satisfactorily arranged, there is no reason why Canada should not practically sell out everything. Great Britain and Ireland will require at least 180,000,000 bushels, or about 70,000,000 more than Canada has to export.

### A Remarkable Record

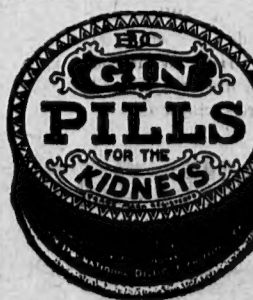

In the five and a half years that elapsed since the Saskatchewan Agricultural Co-operative Association Act came into operation, 465 co-operative associations have been registered. This is a remarkable record. On October 29, Saskatchewan Co-operative Creameries Limited will begin to operate poultry killing stations at Regina and Saskatoon, where chickens, turkeys, ducks and geese may be marketed. This system of co-operative marketing has achieved much success in former years.

### The Deadly Coffin Nails

The secretary of the temperance board of the Methodist Church in the United States has given notice and warning that the next crusade will be against the cigarette. And, as the world seems to be experiencing a return of the crusading spirit, the threat is not to be lightly ignored. Who would have dared to predict a few years ago that what has happened in the United States and Canada in regard to the liquor traffic would happen? When the crusading spirit gets going there is no telling where it will stop.—Woodstock Sentinel-Review.

A man may not be a coward because he is afraid of a woman.

Look out for dark days when the weather man predicts light rains.

### "SYRUP OF FIGS"

### CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Minister (who has discovered some boys playing marbles on Sunday)—"Dear, dear; do you know what day this is my lad?" Small boy—"Hey, boys, here's a fellow been out all night and don't know what day it is."—Top-Notch Magazine.

### Minard's Liniment Cures Colds, &c.

### Telegraph Service Resumed

The general telegraphic intercourse between Germany and France, inclusive of Algeria and Tunis, has been reopened. Provisionally, only commercial wires in intelligible German, English, French, Italian and Japanese are passed.

The censorship on telegrams in Germany has been raised. Press telegrams between Germany and Great Britain are again allowed, and code telegrams from Germany to Holland are permitted if reliable information on their contents is given if desired.

A scientist says that cholera germs look like a comma. Possibly, but when they get into a man's system they are apt to put the final period to his existence.

It's easy to find fault where it isn't.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

### Debt Penalized in Siam

People in Siam are cautious about getting into debt. When a debtor is three months in arrears he can be seized by the creditor and compelled to work out his indebtedness. Should a debtor run away, his father, his wife or his children may be held in slavery until the debt is cancelled.

The British Admiralty is honoring a Canadian city by naming one of the new fast destroyers which is shortly to be launched "Vancouver." The coast city's coat-of-arms is to be built into the vessel.

Warts will render the prettiest hands unsightly. Clear the excrescences away by using Holloway's Corn Cure, which acts thoroughly and painlessly.

### Increase in Wool Production

Represents a Very Material Increase Over Last Year

The wool clip of Canada for 1919 has been placed at 15,000,000 lbs., according to early estimates. This represents a very material increase over last year, and probably marks the apex of wool production for the current decade. Government figures indicate a production of close to 18,000,000 lbs., but this is thought by well-informed persons in the wool trade to be in excess of the actual clip. The 1918 production was 12,000,000 lbs., or thereabouts. The sheep stock has been increased by between 300,000 and 400,000, making the gain in wool production amount to between 2,000,000 and 3,000,000 lbs. The increase is believed to be fairly evenly distributed over the entire Dominion.

During the month of September over 843,000 pounds of wool went through the consular agency at Lethbridge to United States points. The value of this shipment was half a million dollars or more.

### Protection For Armenians Urged

Is Again Abandoned to the Tender Mercies of the Abominable Turk

"The condition in Armenia continues precarious, the people still at the mercy of the Turks and Tartars, unless it be in southern Armenia, bordering on the Mediterranean, where there are British and French troops," said Miran Sevasly, Armenian representative in the United States.

"Here is a nation," said Mr. Sevasly, "that has held aloft the standard of Christendom and civilization in the Near East for upward of 15 centuries. It fought on the side of the allies in Palestine, in the Caucasus, arresting the onward march of the Turks against British legions on the Euphrates, contributed more than 100,000 men to the Russian front in the beginning of the world war, and sent a legion to fight on the historic plains of Champagne and of Picardy, for doing which about 800,000 men, women and children were ruthlessly slaughtered by the Turks. And having incurred all these sacrifices, Armenia is again abandoned to the tender mercies of the abominable Turk."

### Cavell Cell to Be Made Museum

The cells occupied by Edith Cavell and Gabrielle Petit, in Belgium, previous to their execution by the Germans, are to be transformed into miniature museums. This has been decided upon by the court of justice.

Clothes worn by the two women, their books and other belongings, have been collected and placed in the cells. Plates bearing appropriate inscriptions will be attached to the doors.

### HEALTH FOR THE BABY

The baby of today is the man or woman of tomorrow. Thus the success of the future man or woman depends upon the baby's present welfare. If the baby is sickly and ill-nourished, it is not to be expected that he will grow into a strong, active man who will hold his own in the business world a few years hence. Mothers, it is a duty you owe the future to keep your little ones well now. This can be easily done if Baby's Own Tablets are kept in the house. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, and thus make baby healthy and strong. Concerning them Mrs. W. Orser, Elginburg, Ont., writes: "I have a fine healthy boy three years, and have used Baby's Own Tablets for him ever since he was a small baby. I certainly think them a splendid medicine." The Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Corns are proof that nature is capable of small, mean things.

Many a fisherman waits with bated breath.

### Field, Stream and Road

How strange the old-time pictures of sport would look today—baseball teams boasting at least half-a-dozen sets of whiskers—full-bearded cricketers—champions of the scull with their chins concealed.

Today the athlete knows the importance of the well-shaven chin. He is conscious that he is most keen when he is well-groomed—just as is the business man and the soldier.

For men who love outdoor life and sports, men of virile minds and active bodies, we have designed a Gillette Safety Razor with an extra stocky handle—the "Bulldog" Gillette, shown to the left.

Not that the Gillette needs a sturdy grasp. A light touch, with the angle stroke, removes the most stubborn beard with surprising comfort.

The "BULLDOG" Set includes oval Morocco Case with two blade boxes to match, and 12 double-edged blades.

If your tea or coffee does make you restless or nervous, try

**POSTUM**

This delightful cereal drink is not only wholesome and economical but is truly satisfying in its rich coffee-like flavour. It can be served to the youngest as well as oldest, for it leaves absolutely no harmful after-effects.

# Farmers to Enter The Federal Arena

Winnipeg.—The Canadian Council of Agriculture, which has been in session here, concluded its business by announcing to the public its decision to enter the field of Dominion politics, and calling a conference of representatives of the farmer organizations of three prairie provinces and Ontario, for the purpose of the co-ordination of effort to secure the election to the federal parliament of supporters of the new national policy of the council.

In preparation for this event, the platform which was issued a year ago has been revised and brought up to date by the addition of planks calling for the federal electorate being placed on a political basis and nationalization only.

The decision in regard to the calling of a conference was only reached after a day and a half's debate. The principal point of discussion was if it should be composed of representatives of all the provinces or of only those where there was a working farmers' organization.

A proposition had been submitted by J. B. Musselman, that it should be open to delegates of political organizations in the various provinces, which had for their main object the support of the farmers' platform, but eventually the main resolution was adopted.

The full text of the resolution was as follows:

"Whereas the new national policy advocated in the platform of the Canadian Council of Agriculture is based upon the broad national economic interests of Canada, without respect to any particular class or occupation;

"And whereas a political organization has been promoted within the provincial bounds of Alberta, Saskatchewan, Manitoba and Ontario;

"And whereas conditions now demand the better co-ordination of the political effort of the organized thus far for the purpose of electing supporters of the national policy of the Dominion Government;

"Be it resolved, that the executive of the Canadian Council of Agriculture be instructed to invite representation from the provinces named herein to a conference for the consideration of these matters."

During the consideration of the national platform, the clause calling for the immediate repeal of the War Time Elections Act was eliminated, the Act having passed out of existence on August 1, and the following substituted:

"That the new Dominion Elections Act shall be based on the principles of establishing the federal electorate on the provincial franchise, thus providing for giving votes for women in the federal elections." The following addition was made to the platform:

"We recommend a Naturalization Act based on personal nationalization only."

**Child Burned to Death**  
Hamilton, Ont.—A boy, six years of age, was fatally burned when his mother was away from the house for a few moments to talk to a neighbor. The child got possession of a lighted candle, which set her nightgown on fire.

# U. S. Government Gathering in Reds

Centuria.—Cities of western Washington joined Centuria in arresting members of the Industrial Workers of the World and raiding their headquarters, following the firing on an Armistice Day parade here. Four former United States soldiers are dead and a fifth is reported dying as a result of the shooting, and one alleged I.W.W. has been lynched.

Twenty-two men and women were reported to have radical beliefs, were placed in jail here, and later four of the prisoners, including the woman, were removed to the Lewis county jail at Chehalis by national guardsmen, who patrolled Centuria. Raids were conducted at Seattle, Tacoma and Aberdeen in the I.W.W. headquarters.

In Seattle, fourteen men and boys of literature, according to the police, were taken to police headquarters. The Tacoma police arrested thirty-four members of the I.W.W. and seized a quantity of radical literature.

At Aberdeen, large quantities of literature and the records of the Aberdeen local of the organization were taken.

## Two Killed in Aeroplane Accident

Victory Loan Aeroplane Dashed to Ground Near Eganville

Eganville, Ont.—Harry G. Dobbin, pilot formerly of Leaside Camp, Toronto, and James F. Munro, of Pembroke, were both instantly killed when their Victory Loan aeroplane dashed to the ground in Reeves field on the outskirts of Eganville. Owing to the heavy fog at the time there were no witnesses to the accident, although the machine was plainly heard approaching the town, it having left literature on the way, and was seen flying low near Eganville.

The bodies of the men were badly bruised about the head and legs and the machine was completely wrecked. James F. Munro was a prominent business man of Pembroke and a former Liberal candidate.

Harry Dobbin and his twin brother, Ted, who were natives of Moose Jaw, Sask., have been engaged in an airplane company enterprise in the East and had met with much success. Both had seen service overseas and had been sent back as "squad" instructors at Armour Heights, Toronto.

## Police Raid Seattle Paper

Editor and Several Employees Are Seized, Together With the Entire Plant

Seattle, Wash.—Federal officers raided the office of the Seattle Union Record and seized the plant and several employees, E. Hall, the editor, among them.

United States District Attorney Robert C. Saunders said the office was raided on instructions from Washington, D.C.

The Record editorially said the rioting at Centuria was "the result of a long series of illegal acts by the dead former soldiers themselves."

**Improvement in Wilson's Health**  
Washington.—President Wilson, in a cablegram to Queen Mother Alexandra of Great Britain, said he was happy to say that his health was steadily improving.

His message was in reply to one from the Queen thanking him for re-expressing her grandson, the Prince of Wales, and expressing the hope that his rest would give him fresh strength and health for the future.

**House of Lords Rejects Women**  
London.—The House of Lords rejected the clause in the Bill for the removal of sex disqualifications, which would permit women to sit in the House of Lords. The clause, in the form of an amendment, was added to the Bill by the House of Commons on October 27.

**Smallpox Cases in Ontario**  
Toronto.—The medical health officer reports 33 cases of smallpox in this province. A case of 36 cases with 878 exposed persons under quarantine. The provincial health department reports 133 cases outside of Toronto.

# Premier Drury Has Announced His Government

W. F. Nickle, K.C., Has Been Offered the Portfolio of Attorney-General

Toronto.—Premier Drury announced that E. H. Grant, member-elect for Carleton, had accepted the portfolio of education in the Ontario cabinet now being formed. Mr. Drury also stated that he had wired W. F. Nickle, K.C., of Kingston, offering him the portfolio of attorney-general. The Farmers' Sun, which is regarded as the official mouthpiece of the premier, gives the following list of the new cabinet:

Premier, E. C. Drury; minister of agriculture, Manning Doherty; education, H. H. Grant; lands and forests, Benish Dowman; public works, F. C. Biggs; labor and health, W. R. Rolph; mines, H. Mills; provincial secretary, C. Nixon; provincial treasurer, Peter Smith; attorney-general, W. F. Nickle.

Without portfolio, Lieut.-Col. D. Carmichael, D.S.O.

## War Board On The Car Shortage

Railway War Board Issues Statement Dealing With Handling of Coal and Feed

Winnipeg.—Owing to unusual conditions through the West prevailing, the western branch of the Railway War Board issued this statement:

"The demands made upon the railways equipment and facilities in Western Canada during the past two or three weeks have rarely been exceeded. This is due to a variety of causes. In the first place, owing to the three months' strike in the Western Canadian mines, many points in the prairie provinces were caught by the early coming in of winter, practically without any coal whatever, and the sudden severe weather which has extended all over the West has created an unprecedented demand for coal. The tonnage of western coal being handled to Manitoba and Saskatchewan is tremendously greater than has been handled in previous years, and this means a heavy coal movement in the same direction with grain and stock, and the handling of thousands of empty cars west of the mines. This coal to a large extent formerly came in the grain empties returning from the lake head, but the shortage of American anthracite this year and the greater favor in which western coal is now held for domestic purposes has caused an enormous increase in the movement from the western mines, and has placed upon the railways a correspondingly increased burden.

"The dry season in Southern Alberta and Southern Saskatchewan, resulting, as it has, in large sections of stock-raising territory being denuded of feed, has caused an extraordinary heavy movement of stock from these sections to the markets, as well as a large movement from these sections to portions of northern Alberta and Saskatchewan where feed is plentiful, or can be produced, and the railways are also being called upon to handle thousands of cars of feed into the drought areas, which are not handled in ordinary years. The heavy snowfalls made it necessary that this stock be moved out and feed handled at once, to prevent suffering, and the railways are exerting every effort to accomplish this.

"The severe weather, resulting as it has in stoppage of fall-plowing and other farm work, has been followed by heavy increases in grain marketing, and this, together with the demand for increased exportation of wheat, has added to the burdens of the railways.

"A very acute shortage of cars in the United States has made it exceedingly difficult to secure return of Canadian cars going into the States loaded, and this has been particularly the case in connection with the stock movement, the railways have been forced to furnish box cars for local stock movement, on the basis of two box cars to handle the number of animals ordinarily handled in one stock car, which has depleted the supply of box cars for other purposes.

"In addition to all this the severe weather and heavy snowstorms have necessarily slowed up the movement of traffic to some extent and has interfered with the distribution of empties through the necessity for using engines to operate snowplows instead of hauling trains of empties.

"Preference in car supply and movement is being given to fuel, feed and stock, and every possible effort is being put forth by the railways to relieve the situation as speedily as possible. It is right, however, that the public should be informed as to the conditions under which the railways are operating."

## Sinn Fein M.P.'s in Court

Members of British House Sentenced to Two Months' Imprisonment

Dublin.—The Sinn Fein members of the British House of Commons who were arrested in the raids on the offices of the Sinn Fein parliament were arraigned in the police court on the charge of participating in forbidden proceedings. They refused to recognize the court, and each was sentenced to two months' imprisonment.

Among those arrested were John Mahoney, John Hayes, and Frank Lawless.

## Starts Flight to Australia

London.—Captain Ross, a British aviator, has left the Hounslow aviation field in an attempt to fly to Australia. Captain Smith has made several long flights. In 1918 he flew from Cairo, Egypt, to Bagdad, Asiatic Turkey, and later from Cairo to Karachi, British India.

W. N. U. 1290

## Quebec's Premier May-Resign

Sir Lomer Gouin Is Leaving for Europe After Session, and May Retire First

Quebec.—With the announcement by the Quebec government that the next session of the government will open on December 10 came the renewal of rumors that Sir Lomer Gouin had announced his resignation. It is generally conceded here, even by the Liberals, that Sir Lomer Gouin will shortly retire from leadership in the province of Quebec, but whether or not he told his cabinet when he would withdraw was not divulged by any of the members.

When spoken to by newspapermen and asked directly if there was any truth in the story of his resignation, the premier is said to have replied: "No, the session has been called."

It is known that Sir Lomer is leaving for Europe after the session, and he may resign before he leaves. Rumors also announce that he would be succeeded by Hon. J. E. Caron, minister of finance.

## Referendum Probable In Manitoba

Liquor Action Will Not Be Taken Up at Same Time as Elections

Winnipeg.—As soon as peace is officially signed, the importation of liquor into Manitoba will be legal, J. N. MacLean, administrator of the Manitoba Temperance Act, announced.

He stated he found a clause in the Act which can be invoked to prevent export of liquor from this province. With regard to the attitude of the provincial government, Hon. Mr. Brown stated that it is their desire to have the people express their wishes in regard to referendum, but it is unlikely that such referendum would be submitted at the time of the elections next summer as the issue might bedevil party platforms.

## Lost at Sea

Two of the Crew of H.M.S. Renown Swept Overboard

New York.—William Franklin and John Lait, able-bodied seamen of the crew of the British battle cruiser Renown, were lost at sea when the Renown, plowing through a gale, was coming here from Trinidad to take the Prince of Wales home.

Midshipman Richard Knight was taken from the big battle cruiser to the Presbyterian hospital with both legs broken as the result of tempestuous weather.

Shortly after running into the gale, Midshipman Knight, with a crew of four, hastened to make fast some of the movable gear of the ship. While they were working, a heavy sea swept over the bows and jammed them against the breakerwater, fracturing the midshipman's legs and carrying Lait overboard. A lifeboat was lowered, manned by a crew of fourteen. As this boat reached the water it was capsized by another huge wave and its occupants were thrown into the sea. General quarters were sounded and a portside lifeboat was lowered. All of the crew of the first lifeboat except Franklin were rescued.

## Cabinet and Irish Question

British Government Is Much Embarrassed by Publication of Plan for Settlement

London.—The cabinet is about to take up consideration of the proposals of the cabinet committee on the subject of Ireland.

It was learned from authoritative sources that the government is much embarrassed by the publication of what is purported to be the government plan for the settlement of the Irish problem. The Associated Press is officially informed that all stories hitherto printed are necessarily speculation and incorrect, because the government has not yet formulated its proposals and cannot until the committee's report is considered.

**Rumania's Reply Unsatisfactory**  
Paris.—The reply of Rumania to the allied note recently presented, in which it was again demanded that Hungary be evacuated, is regarded in peace conference circles as wholly unsatisfactory. The note, which was taken up for consideration by the supreme council, was characterized as extremely evasive.

## Manitoba Good Roads

Winnipeg.—During the past week applications from eight Manitoba municipalities for road work under the Good Roads Act have been approved, to the amount of more than \$1,000,000.

## Prohibitionist Is Abused in London

American Lecturer Severely Beaten By Mob in Fashionable West End

London.—William E. Johnson, an American prohibition worker and Anti-Saloon League organizer, familiarly known here and elsewhere as "Pussyfoot," was dragged from a platform from which he was speaking, severely beaten, and paraded through two miles of crowded West End streets on a plank. His assailants for the most part were medical students, and against them at times he put up a strenuous fight, receiving a badly damaged eye and other injuries, so that finally, owing to his weakened condition, he was obliged to submit to the indignity.

Eventually Johnson was rescued by the police, who during the early part of the march simply kept the crowd moving. He was rushed to Bow street station, where his injuries were dressed, and he was then able to go home. The reason for the attack was a meeting in Essex Hall, just off the Strand, at which a debate had been arranged under the auspices of the Overseas Club and Patriotic League between Mr. Johnson and R. Mitchell Banks, a lawyer, on the "How and Why of American Prohibition."

The chairman of the meeting was F. A. Mackenzie. He, too, was seized by the crowd, but was soon released. The meeting had no sooner opened than there was an uproar due to the activities of a few young men, who immediately engaged in heckling prohibitionists, and anti-prohibitionists pleading for order.

Outside the building there were potent signs of impending trouble. A great crowd of students had gathered, and after Mr. Johnson began to speak, hundreds of the students, who evidently were organized, tore down the iron gates of the entrance to the hall, brushed aside the police, charged down the aisles and seized Johnson and Mackenzie. These two they pelted with bags of flour, then hoisted them into a wagon and proceeded to King's college nearby where both were invited to state their cause for prohibition for the students, but were not allowed to proceed because of the howls.

The rioters then discarded Mackenzie and mounted Johnson on a plank. This a stalwart group mounted

on their shoulders and marched through the Strand, Covent Garden, Leicester Square, Piccadilly Circus, and Oxford Terrace to Portland street, where the police intervened and effected a rescue.

As the procession moved through the streets, with banners adorned with black cats, pictures of beer steins, and other decorations, there were frequent cries, "We've got Pussyfoot," but Londoners, accustomed to students' marches recently, did not really believe that it was Johnson and the march did not cause as much excitement in the streets as might be expected. Some of the prohibition campaigners, mostly United States citizens, declared to the Associated Press, "that they did not believe the police had made a sincere effort to break up the crowds and contended that they could have rescued Mr. Johnson much sooner if they had so desired."

## Extend Government Roads

Department of Railways Aims at Girdling Globe With Canadian Systems

Winnipeg.—The process of effecting economies and attaining maximum efficiency in connection with the national railways, will of necessity be a gradual one, but is now engaging the attention of the department of railways, whose aim is to make of the system finally a rounded out system of world transportation, coupled with a steamship service both passenger and freight.

A reform already decided upon has in view a short haul from the head of the lakes to Montreal by the linking up of the National Transcontinental with the Canadian Northern by a spur from Grant to Long Lake. This will also permit coaling the transcontinental by short haul from Fort William. The work which involves the building of a very short spur will be proceeded with in the near future.

The elimination of duplication will be proceeded with cautiously inasmuch as in many parts duplicating lines serve well settled and productive areas. Between Winnipeg and Fort William, however, is a big stretch of sparsely inhabited country at present traversed by no less than three railways, and the problem of elimination of duplication there is to be seriously considered. In the west there will no doubt be a considerable joining up of branch lines to facilitate the movement of crops,

# Confer With Jellicoe On Naval Policy

## Railwaymen to Get Increased Pay

New Rates Are Effective as From May 1 Last, When Negotiations Were Opened

Montreal.—It is announced by the Canadian Railway War Board that an agreement providing for increases in rates of pay and certain changes in working conditions was signed by the board, acting on behalf of the railways concerned, and by the officials of Division No. 4, railway employees' department, American Federation of Labor, which includes in its membership Canadian railway employees engaged in the locomotive and car departments.

The agreement was signed on behalf of the board by the chairman of its administrative committee, Grant Hall, and for the employees by Messrs. R. J. Tallon, Frank McKeena and Charles Dickie, president, vice-president and secretary respectively of the labor organizations.

Negotiations which culminated in the agreement completed were commenced in May last. The employees asked for a general increase of 17 cents an hour. The new agreement provides for four cents an hour to men engaged in locomotive work and nine cents an hour for those engaged in the car repair shops. These rates are effective as from May 1 last. Changes in rules pertaining to working conditions go into effect on the first proximo.

## Viscount Grey May Recover Sight

Washington Specialists Diagnosed Cause in an Abscessed Tooth

Halifax, N.S.—The Canadian Press learns on the most reliable authority (a passenger on one of the big liners coaling here) that the cause for the blindness of which Viscount Grey, British ambassador to Washington, is afflicted, has been diagnosed by an eminent United States specialist, Dr. Wilmer, of Washington.

The origin of the affliction is said to have been found in an abscessed tooth, which has impaired the optic nerve.

Viscount Grey, it will be recalled, was obliged to withdraw from political life on account of this affliction and it was only for reasons of vital principle bound up in the appointment that he accepted temporarily the position of ambassador.

The belief is now entertained that the discovery of the cause of blindness does not come too late, and it is even believed that his sight may be fully recovered.

## White Sugar Coming

Winnipeg.—While wholesale sugar dealers say the public must get along with brown sugar owing to the scarcity of the white, they still assert that the good granulated is being sent overseas by the boatload.

## Austria Granted Credit

Copenhagen.—The entente has granted a credit of \$60,000,000 to Austria, according to the Vienna Tageblatt. This will be utilized principally for the purchase of raw materials.

## Extend Government Roads

Department of Railways Aims at Girdling Globe With Canadian Systems

Winnipeg.—The process of effecting economies and attaining maximum efficiency in connection with the national railways, will of necessity be a gradual one, but is now engaging the attention of the department of railways, whose aim is to make of the system finally a rounded out system of world transportation, coupled with a steamship service both passenger and freight.

A reform already decided upon has in view a short haul from the head of the lakes to Montreal by the linking up of the National Transcontinental with the Canadian Northern by a spur from Grant to Long Lake. This will also permit coaling the transcontinental by short haul from Fort William. The work which involves the building of a very short spur will be proceeded with in the near future.

The elimination of duplication will be proceeded with cautiously inasmuch as in many parts duplicating lines serve well settled and productive areas. Between Winnipeg and Fort William, however, is a big stretch of sparsely inhabited country at present traversed by no less than three railways, and the problem of elimination of duplication there is to be seriously considered. In the west there will no doubt be a considerable joining up of branch lines to facilitate the movement of crops,

Winnipeg.—A dispatch to the Free Press from its Ottawa correspondent reads: Admiral Viscount Jellicoe, of Scapa, is expected in Ottawa next Monday and will be at the capital for some days conferring with the government on the question of the future of empire naval defences. The conference will be of a consultative nature, and no definite policy will be immediately evolved as a result of it.

Admiral Jellicoe has visited Australia and New Zealand already and from cable dispatches received here has suggested something in the nature of an imperial navy for the Pacific and Atlantic with the dominions paying part of the cost of the squadrons.

Since the defeat in parliament in 1913 of the government's thirty-five million appropriation proposal, Canada has had no naval policy. When the war broke out the government here decided to devote the whole energies of the Dominion, financial and otherwise, to the raising and equipping of land forces, though toward the end of the war the building of merchant ships was engaged upon. Incidentally a number of submarines were built in the Dominion for use in European waters. But the question of a permanent naval policy for the Dominion has been left in abeyance since the Canadian navy program was to all intents and purposes abandoned in 1913.

Hon. C. C. Ballantyne, minister of marine and naval affairs, has returned to his departmental work at Ottawa after a prolonged illness, and will be in attendance at the conference which is pending. The minister has already intimated that a naval policy for the Dominion will be brought down at the next session of parliament. It is highly doubtful whether any contribution policy will find favor with parliament. A cabled dispatch from Melbourne intimating that Canada would be required to contribute to the upkeep of the squadron of the Pacific and Atlantic was read in the house last session by a member of the opposition, who enquired of the administration as to the truth of it. Hon. C. J. Doherty in reply advised the honorable member

to set his mind at rest, as Admiral Jellicoe had no power to commit the Dominion to any policy and comes here in a consultative capacity. As a matter of fact, Admiral Jellicoe is but filling an invitation extended him actually before the war broke out, and in the matter of a Canadian naval policy the present condition of Canadian finances must be taken very seriously into account.

## Yudenitch Still in Grave Position

Washington.—Despite the repulse of Bolshevik attacks on both flanks of his line, Gen. Yudenitch, commanding the northwestern army in Russia, still is in a most critical situation, according to official advices here. Evacuation of Yamburg was reported, and it was said that large Bolshevik forces—probably released by inactivity on other fronts, were approaching the line of the Tarva.

## Bulgaria to Sign Peace Treaty

Paris.—The peace conference has received information that the Bulgarian government has decided to accept and sign the treaty as presented to the Bulgarian delegation.

# Miners Will Now Accept Court Ruling

Indianapolis.—The United Mine Workers of America, contrary to previous announcement, has decided to withhold the appeal to the ruling of the federal court in injunction proceedings, which resulted in the calling off of the strike of miners.

It had been generally believed that, regardless of developments in the situation, the miners would fight their case in the courts to the last ditch, and attorneys for the coal workers announced that their appeal would be filed within two or three days. However, Henry Warrum, chief counsel for the Mine Workers' organization, stated that the outcome of the conference of the miners' representatives and coal operators with Secretary of Labor Wilson, in Washington, would determine to a large extent whether the case is carried further. The miners' council has thirty days in which to file the appeal.

The decision of the miners is taken to indicate that they have accepted the government's assurance that the suit against the miners was not an

attack against the right to strike, but was solely to prevent violation of the law; in this case, the Lever Act.

Possibility of speedy agreement at the Washington conference, according to opinion here, is marred only by the question of when a new wage scale will become effective. Miners' spokesmen have stated that if the operators go to the conference in a spirit of conciliation, agreement was only a question of hours, but it is known that the union men object to the position taken by the operators that the wage scale in effect before the strike still is in effect.

Miners' officials declined to comment on the way in which members of the organization are responding to the order calling off the strike, and would give no reports from the district headquarters. Very few of the miners in the Indiana coal fields reported for work, and it is not believed that operation in the fields can be started extensively before next week.

# The Busy Store

## Ladies!

Have you inspected our line of WINTER COATS? If not do so.

You will be surprised and delighted with the range and the prices on these coats are absolutely right.

Prices range from \$25 to \$49

The Styles are all new and every coat is different.

We are receiving each week SWEATERS from the famous Monarch Knitting Mills. The class to which the goods belong is the very Highest. The prices are not based on to-day's value but on the value of a year ago. We have also some beautiful Scarfs and Caps.

We carried over some Men's OVERSHOES and FELTS and are offering them at the old Prices, namely:

1 buckle \$3.25, 2 buckle \$3.75  
4 buckle \$4.50.

The Low Rubber Shoe is  
certainly a bargain at \$2.25

Don't Forget that we are the Agents for  
eo. A. Slater Shoe.  
The Best of All Shoes.

We are making a special of a  
Man's  
Pullover  
Sweater  
Combination Colors, \$5.50

## Union Church Notes

Curtains dividing the auditorium into class rooms were used for the first time on Sunday morning. Teachers and scholars alike appreciate the advantages of the class room idea for Sunday school work.

Delegates were appointed last Sunday evening to attend the inter-church forward movement conference, to be held in Calgary Dec. 2nd and 3rd.

Ladies Circle meet on Thursday at 2.30 p.m. at the home of Mrs. Currie, 8th Ave.

Strangers and visitors in town are cordially invited to the services next Sunday. School and Bible class 11 a.m. Evening service 7.30 p.m.: Subject "The Jews of Today as related to Prophecy."

## COMING EVENTS

Nov. 21—The Gleichen Citizens Band dance.

Nov. 22—"Luck and Pluck" at the Opera House.

Nov. 24—Annual Public School meeting.

Nov. 25—J. W. D. Woodward auction sale.

Nov. 25—Meeting to organize a Curling Club.

Dec. 26—G.W.V. Whist Drive.

Dec. 1—Nomination of the Public School trustees.

Dec. 5—Hockey Club dance in the Opera House.

Dec. 6—Sale of Work by Union Church Circle, in P.O. Block.

Monday—Ad. changes required by noon at CALL office.

## Circle Sale of Work Dec. 6

The ladies of the Union Church Circle are busy as bees these days, preparatory to giving a sale of work on Saturday, Dec. 6th. All sorts of pretty and useful articles are the outcome of their efforts. A good supply of their ever recommendable aprons are already waiting for the Gleichen housewives as well as caps, camisole bags, corset covers and numerous other things.

Two soft downy old-fashion comforts, pieced by the Circle ladies, will mean solid comfort for this winter. Anyone in need of bedding will not miss this opportunity. Many of the best cooks of Gleichen will furnish the loaves, cakes, pies, etc., for the sales of home-cooking. Afternoon tea will also be served.

The ladies have secured, through the kindness of Mr. E. I. Taylor, the large bright office room of Lasher & Gillian, in the Post Office Block, and will hold their sale there. Come, we are sure you will not be disappointed if you are there by 3 o'clock. Positively no article will be sold or marked sold before that hour.

Prof. Barry is in town and opens his class at 10 o'clock tomorrow morning—Thursday.

R. J. Davis of Tacoma spent last Monday in town, the guest of Mr. and Mrs. Bartsch. While here he transacted some business for the old Pacific Cold Storage Co.

The pictures for next Saturday night at the Opera House will be the best Fox films George Walsh has ever appeared in and is titled "Luck and Pluck". He is famed athlete and in this play performs some of the most thrilling stunts ever shown on the screen.

Mr. and Mrs. Jas. Desjardine left Sunday afternoon for Calgary with their daughter, where she is to be operated on for appendicitis. They have had a lot of illness in their family of late and intend to have another one of their children operated on for appendicitis during the Christmas holidays, upon return from attending the convent at Medicine Hat.

The Hockey Club took advantage of the warm weather to clean up the rink and re-build the fence. All is now ready to flood it when Jack Frost next comes this way again. We may look for some fast hockey this winter as we have a number of good players and all are keen for good sport.

## Announcement

Having purchased The Gleichen Meat Market from Mr. Victor W. Beckwith we desire to announce to the people of this town and district that it is our intention to give the very best service our life-long experience in this business enables us to render. We ask a trial order to prove what we can do in quality, price and service. We guarantee satisfaction in small or large orders, and the children will receive the same attention as you receive.

Not only are we happy to sell the best of meats, but we are prepared to purchase all the products of the farm and ranch at the highest market price.

## We Buy and Sell

It appears some people have been sold an inferior grade of coal which was represented as Galt Coal. The reputation of this famous high grade coal is too well established to comment on its quality. For your protection please remember we are the sole agents for Galt and Bankhead hard coal and it cannot be had from anyone except ourselves.

SOLE AGENTS FOR  
Galt and hard coal. Canadian Oil Co.  
Dealers in Chevrolet Cars

Brown's Transfer Co.
